SAY!
DON'T FORGET TO BE A LITTLE HAPPIER THIS YEAR. IT PAYS

VOLUME LXIV., NUMBER 45. REDWOOD CITY, SAN MATEO COUNTY, CALIFORNIA, SATURDAY, FEBRUARY 7, 1925. ESTABLISHED 1859

ENTRANTS ARE SLOW TO ACCEPT GENEROUS OFFER IN GIFT DISTRIBUTION

Opportunity Going! Going- Will it be "gone" for you The Times-Gazette distribtuion, in which two big, beautiful, luxurious closed cars, one big radio and $1350 in cash will be given, is open today. The Times-Gazette is today accepting nominations. Your opportunity is here.

With the campaign, but little more than a few days old, no real start has yet been made. There have been some inquiries, but as yet there is no tangible evidence of activity. You can enter today and get into this "Everybody Wins" distribution, not alone on the ground floor, but in the basement.

Capital prizes are today more numerous than candidates entered. By this is meant simply this—there are not as many entries—good, bad or indifferent, as there are grand prizes. Your oportunity is here today if you are able to make a decision to help yourself.

The Prizes Offered

There is a $1,385 New Studebaker five-passenger Duplex Phaeton; a $1075 Essex coach, 1925 model; a big $210 R. K. 5-tube Radio set, complete with console, no extras to buy, and any one of these can be yours. Then there are cash prizes and commissions totaling hundreds of dollars. Every participant who does not win a car, a radio, or cash prizes will be paid a cash commission of 20 per cent, that is, 20 cents on every dollar in subscriptions you turn in. Twenty per cent is one dollar in five for yourself, and you have nothing invested but a part of your spare time. Can you do as well in any other way?

Where else can you go and in a few weeks carry away up to $1385? "Everybody Wins Something" is the campaign slogan. In this campaign you win. There are no goals set— the grand prize winners win because they have more credits than others, but everybody wins and wins in a real way.

Great Opportunity

Surely a greater opportuniy has never knocked at your door. The two biggest prizes in the Times-Gazette distribtuion are two big, beautiful cars. They are cars of known value and worth—no cheap ones What an opportunity exists for persons who are wide-awake enough to send in their nominations and secure one as a result of their spare time effort the next few weeks. And there are cash prizes, too. And the 20 per cent commission feature.

Sign the nomination blank in today's Times-Gazette. See that it gets to the Times-Gazette office. Make the start, the start will make you more money in a few weeks of just your spare moments than the average man makes in an entire year.

How can the Times-Gazette make you realize the opportunity there is for a man or woman who will go in to win—who will go in and "carry on?" If you could see it as the Times-Gazette sees it, you would have your nomination in this very minute.

Candidates In

The Times-Gazette admits candidates have been slow to get in. But no one is crying. It simpley means that you have forsight as well as hindsight and will be able to profit easier and mightier.

This campaign is an out and out business proposition—a proposition of salesmanship, with everything in your favor. There is no time for sentiment. The Times-Gazette is putting up some $4,000 in automobiles, radios and cash. In order to participate in the awards you get subscriptions.

Turn now to the page announcement in this issue. See for yourself the opportunity presented to you. Get an early start for your choice of the cars by entering the campaign now. You may enter yourself or the name of a friend.

NEW DISTRICT MASONIC INSPECTOR

Charles G. Lambert of this city, who for the past fifteen years has been inspector of the local Masonic district, has retired from his position, and Samuel L. Hawken of Burlingame has been selected to fill his place. The Fiftieth district, under the leadership of Mr. Lambert, has become one of the best known in California, both because of the perfection of the rendition of the ritual and also because of the snappiness of the floor work.

During his service as inspector, Mr. Lambert has examined all of the Masons elected to the various offices of the several lodges of the district and has been present at meetings in all sections of the state. He has become an authority in Masonry, and his counsel has been sought on numerous occasions. Press of business prompted him to give up the position which he has held so long and so creditably.

Mr. Hawkens, who succeeds Mr. Lambert in Junior Past Master of Burlingame Lodge No. 400. He is a resident of Burlingame and is connected with the Garnett Young Company, a wholesale electrical supply company of San Francisco.

LAS LOMITAS P.-T. A. RECEIVED LARGE DONATION

The Las Lomitas Parent-Teacher Association held a very successful meeting at the school house last Friday at which $60 was donated for the use of the organization. Of this sum $30 was a present from Mrs. S. W. Sharon. Mrs. Dunistil was chairman of the meeting.

The association through its secretary, Mrs. A. W. Davis thanked those who attended, especially the large delegation from the Menlo center.

LOCAL COUPLE WED

A local romance culminated in a pretty wedding at St. Matthews Episcopal church in San Francisco in San Mateo last Sunday when Miss Hazel Sagesser and Valentine Tuchsen were united in marriage. The affair was a quiet one, only the immediate relatives and intimate friends of the two young people attending.

The bride was attended by her sister, Miss Anne Sagesser and Stanley Marcus acted as best man.

The bride is the daughter of Mr. and Mrs. John Sagesser of San Mateo and has been employed in the local office of the Pacific Gas and Electric Co. Mrs. Tuchsen is well known here and is a member of the Native Daughters, Rebekahs and the Fraternal Aid Union.

The groom is the son of Mr. and Mrs. H. C. Tuchsen of Arch street, and is by profession a marine engineer. He, also, is prominent in fraternal circles of this city, being a member of the Masons and the Native Sons.

S. P. PASSENGER STATION MAY BE MOVED

It is rumored that the Southern Pacific Company is planning to move the passenger station across the tracts to the land owned by them on the west side of their right of way. This, it is said, is in connection with the plans now made for electrofying the railroad.

Plans and blue prints were made some time ago for enlarging the present station. These plans were held up on account of the greater undertaking of electrofying the line. It is said that the enlargement of the station will be proceeded with in the new site.

Work Rushed On 6,000 Foot Oil Well

By Special Correspondent

Extensive operations are now in progress on the coastside of the county where oil interests are now centering their efforts in an attempt to tap the huge subteranenean lake of petroleum which geologists have for years said exists along the coast of this county.

The latest recruit to the oil prospecting work in this section is the C. C. Julian Company from the southern oil fields. This company is at present pumping on a shallow well on the Cowell ranch, near Purissima, and report that the oil though the flow is small, is of such a high quality that the present operations will be extended by drilling of other shallow wells if the large body of oil cannot be tapped.

It is the intention of the Julian Company to drill to a depth of six thousand feet if necessary in search for the main flow of oil. At present crews of skilled oil men are at work working night and day drilling two wells on their property here.

Oil has long been konwn to exist on the coast side, and small quantities have been pumped for years. This oil is of a high gravity and of a parafine base, and is claimed to be the only field in the United States to equal the high quality of oil of the famous fields of Pennsylvania.

SUPERVISORS CONSIDER COLMA ROAD IMPROVEMENT

North Fair Oaks Road Abandoned; Additional Lights for Menlo Park

A petition signed by a number of residents of Colma and asking for the improvement of Lisbon and other streets in that place was received by the board of supervisors at their regular meeting last Monday. Supervisor Hickey addressed the board in the matter. These streets were somewhat blocked by the building of greenhouses and fences on them he explained, and made a motion that County Engineer Kneese make a survey of the streets in question prior to any action on the grading matter.

District Attorney Franklin Swart appeared before the board to represent several petitioners who desire the abandonment of a part of Railroad avenue in North Fair Oaks. W. W. Thompson was called by the district attorney, and after being sworn testified that the avenue was not and never had been used as a public road, and that its continuance as a county thoroughfare was of advantage to no one.

Swart presented a resolution stating that the road be abandoned. This resolution was accepted by the board.

A petition signed by a number of residents of the MenloPark lighting district, asking for additional lights on Santa Cruz avenue at the intersections of Doyle avenue and the State highway, was laid over for a week.

City Attorney, Albert Mansfield of Redwood City, appeared before the board to ask permission for the erection of a traffic signal at the corner of Broadway and the State highway in Redwood City. This was made necessary by the fact that the county controls the middle of the highway.

Permission was granted the Great Western Power Company to erect poles along School street in Colma.

A protest was received by the board against the granting of licenses to several soft drink places, whose proprietors have been convicted of selling liquor. The protest is from the Citizens' Protective League and is aimed at certain parties who have been operating near Menlo Park and the Veterans' hospital.

A map of the Hermosa tract, a new subdivision near the Catholic cemetery at Menlo Park was presented to the board by County Engineer George A. Kneese. A communication was also received by the board from the board of trustees of Atherton stating that they had refused to approve the tract as at present laid out. The matter was laid over for a week by the board.

A request from the Utah-Nevada-California Highway Association asking for $1000, this county's share of the construction of the Victory highway through Nevada was referred to the district attorney.

The matter of the formation of the Diamond Public Utilities District at Visitacion was taken up by the board and February 24 was set as the time for the election.

TWO MEETINGS TO DISCUSS LAW ENFORCEMENT

There will be two meetings held here Wednesday for the discussion of law enforcement, one in the afternoon and one in the evening at the Redwod City city hall.

These meetings will be for the general discussion of law enforcement and will be under the direction of Mrs. Lucy A. McClintic of San Jose. The first meeting will be at 11 o'clock, the evening meeting at 7:30. The public is invited to both meetings.

KIWANIS PLANS PLAY

At a meeting of the officers and directors of the Redwood City Kiwanis Club Thursday, the matter of giving a burlesque melodrama was discussed. No details of the affair have been decided upon yet, but a committee headed by Prof. Otis M. Carrington was appointed by President J. D. Hedge to make plans for the play.

City Briefs

Thomas Hydenfeldt, who was recently married in Los Angeles, spent the week end with his parents here. The young man is engaged in the landscape gardening business in the southern city, and reports conditions fine there.

Mrs. Eric Thimpson returned from the Comunity hospital this week with her little daughter, Thelma Marjory. Both are doing nicely.

Miss Bernice Martin has gone to Modesto to enter college at that place.

C. G. Uhlenberg is spending the week in Salinas on business.

The Neighbors of Woodcraft are planning a card party for Thursday evening, February 19, at the Odd Fellows' hall.

Mrs. Magnini is at the home of her mother, Mrs. Drivon on Stafford street, having returned from St. Mary's hospital in San Francisco this week, following an operation.

Mrs. Harriet Sahlberg is able to get around again after an illness of about three weeks.

Mrs. Ed Gibson, nee Erma Leslie, was a visitor in town Thursday evening from San Moteo. Mrs. Gibson atttended the meeting of the Neighbors of Woodcraft while in town.

A. A. Arends and H. Biron returned last Saturday from a trip to the southern part of the state and Las Vegas, Nevada. While enroute south, they were crowded off the San Juan grade a short distance out of Gilroy and Mr. Arends sustained several pretty deep scalp wounds. Mr. Biron escaped injury and little or no damage was done to the car although it turned completely over.

Mrs. Carl Mann of Ramona avenue returned from the Community hospital Thursday with her baby daughter, Lillian Frances. Both are doing nicely.

A son was born to Mr. and Mrs. Sheldon Monroe at the Jim Bardin hospital in Salinas this week. This is the second son in the family and has been named Warren Kenneth. Mr. and Mrs. Monroe are well known in this city, the former was at one time a prominent rancher of this distirct.

A marriage license was issued in Oakland, Saturday, Jan. 31, to Fred Johnson of Belmont and Miss Camilla Janes of Redwood City.

Dr. and Mrs. J. F. Gruse with their two sons have moved back to their home at Emerald lake, after a three months' residence in San Francisco.

Mrs. May D. Henshall, head of the department of county libraries for the State Library, was here from Sacramento, Monday and spent the day with Miss Edna Holroyd, county librarian for San Mateo county.

Mr. and Mrs. Frank Beglin of Santiago, Chile, are visiting Mr. and Mrs. J. H. Seaton at San Carlos. Mr. Seaton has charge of the new drug store in our neighboring town. Mr. Beglin is employed by the American Smelting Company and is here on his vacation. The Beglins will return shortly to their home in South America.

Robin Hood Circle Neighbors of Woodcraft will visit San Mateo Circle Monday night and install the officers of that lodge. The officers and any members who wish to go are asked to meet at the I. O. O. F. hall at 7 o'clock of that evening.

VETS OF SPANISH WAR TO CELEBRATE MAINE DAY

The anniversary of the sinking of the U. S. S. Maine will be the occasion for a gathering of veterans of the Spanish war at Mountain View on February 15. The meeting will be in the high school auditorium at that place and will be attended by veterans from all the surrounding territory. Arrangements have been made for busses to leave Redwod City at 6p. m. on the evening of the 15th.

It is the plan of all the members of the local organization, Captain H. J. Riley Camp, United States War Veterans to attend the affair at Mountain View. The officers of the local camp are as follows:

Commander, Richard Hook; senior vice commander, John Berg; junior vice-commander, W. J. Gadberry; adjutnat, Frank West; officer of the day, C. F. Tammany; quartermaster, J. J. Mack; chaplain, E. B. Hinman; trustee, J. J. Cashman; officer of the guard, C. E. Shafer; senior color sergeant, Chas. Stump; color sergeant, John Beaudich.

"FATHERS NIGHT" IN MENLO

The first Fathers' night entertainment given by the Menlo Park Parent-Teachers Association last Friday night, was one of the most interesting programs ever given in the school building. Mrs. William Moore and Mrs. James T. O'Keefe, who arranged and prepared the entire program, deserve much credit for the manner in which it was carried out.

"The Star-Spangled Banner," sung by the school children and accompanied by Mrs. H. J. Van Horne was the opening number. An address of welcome by A. S. Bower, principal of the school, followed.

The program continued as follows:

Reading ..... Mrs. J. J. Garland
Piano Selection.....Miss Helen Aabel
Sketch, "The Unexpected Guest,".... ..... Sixth Grade Girls
Vocal Selections, Louis Tognoli, accompanied by Mille Cherette of San Mateo.
Address by Mrs. W. E. Hayes, president of Countly Federation P.-T. A.
Address, "It's Up to Pou-" by Mrs. George Kell, president of 2nd District of San Francisco P.-T. A.
Address, "Character Building" by Mrs. Edgar De Arman, vice-president National P.-T. A.
Piano Selections.....Victoria Parsons
Exercise, "Venetian Flower Dande' ..... School Girls

One of the most enthusiastically received of the numbers was the rendition of vocal solos by Signor Tognoli, who is very well known on the peninsula, and a singer of great renown. Signor Tognoli responded graciously to several encores.

Little Victoria Parsons, who is called "the child wonder," though only nine years old, proved herself a real artists at the piano.

To the audience, it seemed that each number exceeded the other in excellence.

After the program delicious refreshments were served by the committee appointed for that purpose, which was in charge of Miss Meta Kugelar, and ten efficient assistants.

TRUSTEES TAKE ACTION ON LUMBER YARD PROTEST

About fifty residents of the Vera avenue district were gathered at the city hall last Monday evening to protest to the board against the presence of a lumber yard in the residential distrirt. The protesting citizens had secured the legal services of Attorney A. J. Stebenne, who was there to represent them.

E. W. Magruder, owner of the lumber yard, was also present and was represented by J. J. Bullock.

The fight before the board centered around the fact that one or more of the lots used by Magruder as a lumber yard are said to be included within the residential zone of the city, and to have been first occupied subsequent to the pasage of the city's zoning ordinance.

Mayor Henry Beeger asked City Attorney Mansfield what the position of the city was with regard to the law in this situation, before either of the opposing sides were allowed to present their arguments According to the city attorney, the board had the alternative of starting legal proceedings to determine the right of Magruder to maintain a lumber yard on his property, or it could exclude the property from the residential district.

Beeger, therfore, asked Magruder if he would consent to abandon two pieces of land which are now used as lumberyards, if a third piece were excluded from the residential zone. To this Magruder agreed, but the proposition met with a protest from the attorney representing the other property owners of the vicinity.

It was finally decided that the board pass a resolution ordering the building inspector to swear to a complaint against Magruder, which will bring the matter before the court for decision.

FORMER RESIDENT PASSES

Rev. Charles H. Kirkbride, an old resident of San Mateo, passed away at his home in Floral City, Sunday at the ripe old age of 87 years. Mr. Kirkbride is survived by his widow and two sons, Charles N. Kirkbride, the well-known attorney, and Harry Kirkbride, chief engineer of the Southern Pacific Company, all of San Mateo.

Rev. Charles H. Kirkbride was born in New Jersey and at an early age entered the Methodist ministry. He preached for a number of years in Colorado, and then came to California, where he filled a number of charges. He retired from preaching about thirty years ago, and located in Redwood City, his son Charles at that time being editor and proprietor of the Times-Gazette. He assisted in the editorship of this paper and continued his connection with the Times-Gazette until he moved to San Mateo. There he was for a time city librarian. He organized the San Mateo County Building and Loan Association and was secretary of that organiation for many years.

The funeral was from the San Mateo Methodist church Tuesday and interment was in Cypress Lawn cemetery.

Burying the Hatchet

When the red man roamed the western plains it was his custom, when not engaged in fighting rival tribes, to bury his tomahawk, whence we get the expression "to bury the hatchet."

New $50,000 Enterprise To be Started

Announcement was made this week of the intention of Mayor Henry Beeger of this city to begin at once the construction of a $50,000 plant to handle the distribution of all products of the General Petroleum Company. The local man has secured all distribution rights between San Bruno and Sunnyvale for the big company, and will make Redwood City his headquarters in that line.

The new plant will be on Chestnut street, oposite the plant of the American Manganese Company, and will be ready for operation by the first of March, it is said. A large fleet of trucks is being secured by Beeger to carry on the distribution from this central plant to all the surrounding territory.

Beeger is at present head of the Kelley Linnahan Belting Company, a subsidary of the Beeger Tanning Company of this city.

NEW CITY DIRECTORY NOW UNDER WAY

Will be a Complete Volume; First in Three Years

The compilation of a new residential directory of Redwood City and San Carlos is now definitely started. The Times-Gazette has long planned this project, but had, up to this time been obliged to wait until a good directory crew was available. We can now assure everyone that this much needed book, will be the best directory, yet to be published in this section.

The kindly co-operation of all residents is asked in aid of the compilation and when the solicitors call at your home, please give them definite, explicit information, as there is no charge for this portion of the service; and we are making what we trust is an appreciated effort to get everyone in the book.

The book will contain other than private citizens, names, residences, occupation and address a buyer's guide, a classified business index, display advertising, maps, city, county, state and federal officials.

And as this book will be on file in other centers it will contain matter exploiting this community as the home-seeker's paradise that it is.

Perhaps the most unusual feature of all, will be the complete numerical telephone directory, which will be printed in the volume, listing every telephone in point of numerical order, starting with number one. This telekey feature enables one to find out who a party is by only knowing their number, and will assure the constant use of the book.

What's the Population

With the compilation, a complete census will be taken to determine the exact population within the corporate limits of Redwood City.

Local people may try their ability at guessing the exact population of the corporate limits of Redwood City. Blanks and baHot boxes will be found at the City Market and at both of Ryan's Drug Stores. The nearest guesser wil be entitled to a very fine prize. Guesses are free and one can guess as many times as they please.

No one connected with the Times-Gazette or Directory crew will be allowed to guess. Watch this paper for further details.

FEDERAL JUDGE FINES MENLO PARK BOOTLEGGERS

Menlo Park was represented in the court of Federal Judge George M. Borquin last Wednesday when three bootleggers from that place appeared for trial. The three were John Boyle, August Buchanan and Silvia Mangini.

The three were given light fines and short jail sentences by the federal court. Boyle was fined $40 and given 125 days in jail; Buchanan was fined $30 and given 100 days in jail; and Mangini was given the same.

Called upon from Montana to help in the clean-up of the liquor cases, Federal Judge George M. Borquin, swept through a mass of cases and made some surprising statements.

"The Volstead law has driven the liquor dealer so under cover that a decent man cannot go to a decent place under decent circumstances and buy a decent drink at a decent price," was one of these which made lawyers and court attaches gasp in astonishment.

SOUTH SAN FRANCISCO PAPER SEEKS STANDING

An application was made to the Superior court of this county this week by the South San Francisco Journal and South San Francisco News to be established as a newspaper of general circulation, according to law. The application was made by John E. Hoyle, editor and proprietor of the combined newspapers through his attorney, Franklin Swart.

WEDDED IN SAN FRANCISCO

Miss Katherine Hall, youngest daughter of Mr. and Mrs. George W. Hall, was married in San Francisco last Saturday morning to Liel L. Young, a business man of San Francisco. Miss Hall has for the past two years been employed as a copiest at the court house and has numerous friends here. Mr. Young is a graduate of Annapolis and was until recently an officer in the United States Navy.

On their return from a wedding trip the young couple will make their home in San Francisco.

GRAND JURY FILES REPORT RECOMMENDING INCREASE IN SALARIES OF COUNTY OFFICERS

The report of the grand jury for this year was filed yesterday afternoon by John Munday, foreman. The report reviews conditions in the various departments of the county government, and shows everything to be quite satisfactory. While some recommendations are made, these are chiefly for increases in salary of county deputies. No radical changes in the conduct of the county offices are proposed this year as in some previous reports.

The grand jury has devoted a great deal of time and effort to the preparation of this report, and in accepting the findings of the jury, Judge Buck thanked the members and chairman Munday for the efficient manner in which they had performed their work. The report follows:

To The Honorable George H. Buck, Judge of the Superior Court of the State of California, in and for the County if San Mateo:

The Grand Jury heretofore impanelled by you for the term of 1924-1925, having undertaken to faithfully perform the duties assigned to it, respectfully submits the following report of its actions up to the date if this report:

Concerning Alleged Offenses

The grand jury has inquired into two alleged offenses claimed to have been committed within this county, and after careful consideration has voted two "true bills," which have heretofore been returned into Court, and no "no bills."

Concering the County Jail

The grand jury has inquired into the case of every person imprisoned in the jail of this county on a criminal charge and not indicted, and found that there are no such persons so imprisoned except those who are serving sentences or awaiting trial on complaints in misdemeanor cases.

Inquiry was also made into the conditions and management of the county jail, and the same were found satisfactory, except in the following particulars:

The employees of the county jail are required to work twelve hours a day, seven days a week, and it is for the best interest of the county that its said employees working in the jail be required to work only eight hours a day.

The force of employees of the county working in the jail is inadequate and should be increased by the employment of two more assistants or deputies.

The county jail is not finished, and the construction of the same should be completed by making the following improvements: the upper story has no cells and it not prepared for use; the jail is crowded, and this additional room is needed; also, the heating system is inadequate and insufficient, and this should be remedied.

Concerning the County Farm

The force of employees of the county working at the county farm is inadequate and should be increased by the employment of two additional assistants, so the old people can be properly taken care of.

No proper place is at present provided for the separation and for the care of inmates with contagious diseases, and proper care and attention are not given all such cases.

The heating system is inadequate, and the elderly persons who are inmates suffer discomfort for want of sufficient and proper heat.

The furniture is in bad condition.

Concerning the Community Hospital

The building is well equipped to handle the patients and conditions were found to be quite, satisfactory.

Concerning the Juvenile Home

Conditions at the Juvenile home were found entirely satisfactory.

Concerning the County Clinic.

Conditions at the county clinic were found entirely satisfactory.

Concerning the District Attorney's Office

The legal assistant in the district attorney's office is not adequately compensated for the duties he is required to perform, and $25 per month should be added to his compensation.

Concerning the County Librarian's Office

The county librarian has not sufficient help to perform the duties imposed upon that office, and an additional assistant should be employed.

Concerning the Tax Collector's Office

The chief deputy in the tax collector's office is not receiving adequate compensation for the duties required to beperformed , and the compensation should be increased $25 per month.

An assistant deputy should also be employed the year round to take care of the increased work.

Concerning the Auditor's Office

The posttion of chief deputy in the office now held by Mr. Ed Stack requires the perforrance of duties which are reasonably worth more than the present salary, and the compensation of such deputy or assistant should be increased at least -25 per month.

The work in the Auditor's office has increased so much that the present force is unable to keep the records up to date, and another deputy should be added to the auditing department at once.

Concerning the County Clerk's Office

The force of employees in the county clerk's office is inadequate to properly handle the amount of work of that office, and one additional assistant should be employed for steady work the whole year round, and another should be employed for such time as may be necessary each year to properly handle the work required in election matters.

Concerning the County Surveyor's Office

The force in this department is inadequate, and a stenographer should be provided, and one of the present assistants should be appointed a deputy to properly handle the volume of the work coming into that office, and the county surveyor's salary is inadequate compensation for the duties required and performed, as he is giving all his time to the county, according to our information, and his salary should therefore be increased to $3,500 per year.

Concerning County Funds

A firm of certified public accountant was employed to audit the books and accounts of the various departments of the county, and a copy of the report of the accountants is hereto annexed and referred to as a part of this report, and we adopt the recommendations contained in said report.

All of which is respectfully submited this 6th day of February, 1925.

TO THE FUTURE

ENTERING as it is, on one of the brightest possible futures, it would be well for the people of Redwood City to glance for a spell into the years that are to come and plan now to take care of the growth that is bound to come with the coming months. It is now the time to make the necessary foundations for the superstructure which will be reared upon our work today.

Two issues will soon be before the people of Redwood City, one for an enlarged and improved water supply system; the other for an enlargement of the city hall. Both the water supply and the city hall which at present serve their respective purposes in this community were built at a time before our city had reached the stage of development which it has at present, and both are now inadequate to the needs of the town, and will be even more so as the town develops.

Another fact that Redwood City must face is that unless some provision is made for the connecting of that part of town which lies east of Main street with Broadway, that part of town will never develop with the business section of the city. The two will ever be separated and that which is cut off from the business district will either be stunted in its growth or will develop into a district of its own, and will have another trading center such as Five Points.

If Broadway were continued through to connect with the streets in the rear of Main street, the whole would be brought into a uniform development, and the business houses of the town would benefit accordingly.

Another thing which must be solved for the future is the crossing at the highway and Broadway. Each year sees more cars on the highway, and makes crossing more and more difficult. Eventually some means of making this crossing safe for the hundreds of children who must cross daily in going to school must be found. This is one of the problems which must be solved now for the future.

The creek passing through Redwood City offers another outlet for development. A plan is now being discussed to bridge over the creek for the whole disance between the city hall and Broadway. This would provide for a street passing along the present site of the creek and connecting the business district with the civic center.

All of these things will cost large sums of money to be sure, but all advance must be obtained at the expense of effort. Only when we realize that man will be on the earth for a long time, and plan for the future, will progress begin. We would not favor attempting all of these things at once, but we offer them for the consideration of the citizens of Redwood City.

NEWSPAPERS AND THE PUBLIC

ROY W. HOWARD, head of the Scripps-Howard newspapers, discussing what newspapers owe the public, says first of all a newspaper must be a good citizen and a decent neighbor.

He says they should encourage tolerance and and never forget that a smile has an asset value even in the midst of a fight. He would not print a story that puts a criminal brand on a young person.

He thinks no story should be printed that raises a question on the part of a clean minded boy or girl that cannot be answered or explained by any parent familiar with normal realities of life.

This is a fine stand by an executive of a group of papers that go to working people in hundreds of thousands of homes, registering a tendency toward cleaner journalism.

This new order is bound to minimize crimes, scandals, details of social and moral delinquencies, and substitute more space for industries and enterprises by which nine-tenths of the people make a living.

RADIO REJECTS RUBBISH

SECRETARY HOOVER with his usual perception lays stress on the fact that one of the most important radio developments is not of an apparatus but of an attitude. Broadcasting is developing a discriminating audience.

Its clients are not minded to give their concentrated attention to the mere flotsam and jetsam dumped on the sea of the atmosphere by those who think that any noise will do if it makes a sufficient vibration. The motion pictures had to go through the same winnowing process.

At first the public was victimized by rubbish. It rose up and protested. Every day as Hoover says, the radio is striving more closely to fulfill the popular requirement of better service.

So many worthy attractions are now competing for the possession of the ether at convenient hours that by a natural process of survival the dross is eliminated.

THE DESTRUCTIVE FIRE DEMON

ELIMINATING a personal devil, and a literal hell is a dream of the modern progressive theologian, but the fire demon on earth is still responsible for enormous waste and a foe of human endeavor.

Reliable records compiled by the fire insurance people show that in the five years past property worth $2,278,400,000 was destroyed, a loss that adds

Bringing In Their References

greatly to the burdens of taxation, cost of living and loss of life.

It is a loss and destruction of values to make even the inhabitants of this, the greatest and wealthiest nation in the world, "stop, look and listen," and take some steps to provide greater safety first devices.

The above loss stated in figures may not make as distinct an impression as when presented in a more picturesque form. It is equivalent to burning down 227,840 residences of an average value of ten thousand dollars.

Stood up in a row these dwellings would stretch 1078 miles, and provide housing for 1,139,200 people at an average of five to the family. It is estimated that 75 per cent of this destruction could be avoided by correcting the ordinary fire hazards that cause these losses. No greater problem is before the American people than avoiding avoidable fire losses.

To The Public

The Times-Gazette is giving this mammoth prize campaign, and the management of this newspaper postively guarantees absolute fair and impartial treatment to all who participate.

This is easily the most worthy and most liberal prize aflering ever made to the newspaper reading public in this section, and it now rests with the enterprising hustlers to get busy and get their share of the good things offered. This is YOUR opportunity to secure, without one penny of cost, prizes that would ordinarily take months, even years, of self-denial and saving to acquire—and here they are offered to you in exchange for just your spare time and effort the next few weeks. It will behoove prospective participants to enter their names NOW and be among the first in the field. Remember EVERYBODY WINS in this great distribution, and your prize will be just as great as you wish to make it. It is truly the best spare-moment business proposition ever offered our readers.

How to Enter the Campaign

The first step in order to become a candidate and compete for a prize, is to clip the nomination coupon appearing in this issue; fill in your name and address and mail or deliver to the campaign department of the Times-Gazette. This coupon entitles you or the person whom you might wish to nominate to 5,000 FREE credits. These credits are given you as a starter, and speed you on your way to win. Only one such nomination coupon will be accepted for each candidate.

NOMINATING COUPON

Nomination Blank in The TIMES-GAZETTE "Everybody Wins" Campaign

I hereby enter and cast 5,000 credits for—

Miss, Mr. or Mrs. .....

Address .....

as a candidate in The Times-Gazette "Everybody Wins" Prize Distribution.

NOTE—Only one nomination blank accepted for each candidate nominated.

GOOD FOR 20,000 EXTRA CREDITS
First Subscription Coupon

Accompanied by the nomination blank, and your first subscription this coupon will start you in the race for the magnificent gifts with a grand total of 37,000 credits. This coupon may be used only once and is valid only when accompanied by a subscription remittance.

Name of Subscriber .....

Candidate's Name .....

Amount Enclosed .....

This coupon will count 20,000 free credits when returned to the Campaign Manager, together with the first subscription you obtain. It must be accompanied by the cash, and the subscription must be for a period of one year or longer. The 20,000 free credits are IN ADDITION to the number given on the subscriptions as per the regular credit schedule.

The Plan in Brief

The object of this distribution is twofold—primarily to increase the already large subscription lists of the Times-Gazette, to collect subscription payments from present or old subscribers, and at the same time to afford our friends and readers an unparalleled opportunity to profit, and in a big way, through their spare time during the next few weeks So, it is a plan that works both ways and to the ultimate good of all concerned.

In order to gain this end quickly and advantageously, the most valuable and attractive list of prizes ever offered by a local newspaper in this section of the country has been made ready for distribution among those who participate most heartily. Ambition and energy are requisites

The plan adopted is the fairest and most impartial conceivable. There will be no "double credits" offers, extra credits given or any other credit inducement whatever inaugurated during this competition. Neither will there be any long term subscriptions accepted. The plan of the campaign is straightforward and simple and is fully outlined in this announcement.

Le it be fully understood at the very outset that this is not a "beauty" nor "popularity" contest but a strictly legitimate competitive proposition for enterprising men and women, and boys and girls, and one in which no element of chance enters. One feature of this competition is the fact there will be no losers in this race.

FREE CREDIT COUPON

The Times-Gazette "Everybody Wins" Campaign

GOOD FOR 100 CREDITS

I hereby cast 100 FREE CREDITS for

Miss, Mr. or Mrs. .....

Address .....

This coupon, neatly clipped out, name and address of the candidate filed in, and mailed or delivered to the Campaign Department of the Times-Gazette, will count as 100 FREE CREDITS. It does not cost anything to cast these coupons for your favorite candidate, and you are not restricted in any sense in voting them. Get all you can and send them in—they all count.

Do not roll or fold. Deliver in flat package.

NOTE—This coupon must be voted on or before Feb. 14.

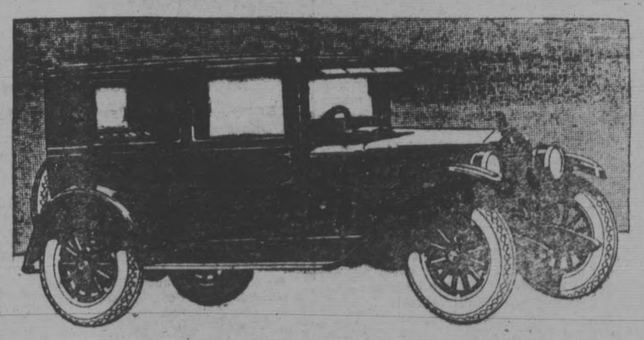
How Credits Are Secured

The first step is to call on or write the campaign department for a free working outfit (consisting of a special receipt book, sample of the paper and other information relative to launching an active campaign.)

Thus equipped, you have but to go to your friends and neighbors, relatives and acquaintances, and have them clip all the free coupons from their papers or pay up a subscription to the Times-Gazette through you. THAT'S ALL THERE IS TO IT. However, you will never win anything unless you make the start; and while it will not be a very difficult matter to capture one of the big prizes. nevertheless you should start at once. You must plan out your campaign the same as any successful business man plans his work for a season, and above everything else let no one discourage you, but stick to the finish. Anything worth having is worth striving for. A few short weeks and you may be riding in your own automobile.

It takes credits to win, and credits are secured in two ways; First, by clipping the coupon appearing in each issue of the Times-Gazette Begin by gathering them now. After a short time these coupons will be reduced to a lesser number of credits. The only restriction placed on coupons is that they must be deposited at the campaign department of the Times-Gazette on or before the expiration date printed thereon. Get your friends saving these coupons for you—they all count.

The other, and faster way, to get credits is by securing new and renewal subscriptions to the Times-Gazette. On each subscription turned in a certain number of credits are issued, the number varying according to the amount paid and during which "period" same are received at the campaign department. See schedule of credits elsewhere. So you see, the more subscriptions you secure the more credits you can get and the better your chances are to capture the grand prize.



$1075 ESSEX COACH PURCHASED FROM AND ON DISPLAY AT W. C. WAVIS, HUDSON & ESSEX DEALER, PENINSULA GARAGE, REDWOOD CITY.

25,000 Extra Votes
With Each New Yearly Subscription During the First Period.

OPORTUNITY COUPON

Good For
250,000 Extra Credits

Any candidate turning in three yearly subscriptions during their first week after entry in the campaign, together with one of these coupons will be allowed an extra bonus of 250,000 credits.

NOTE—Only one of these Opportunity Coupons may be used by each candidate.

The Districts

DISTRICT NO. 1—Shall include all Redwood City and all that territory outside the city limits which is served by carriers within the city limits of Redwood City. One of the two cars and as many cash prizes as there are active candidates will be awarded to this district.

DISTRICT NO. 2.—Shall include that portion of San Mateo county outside of District No. 1., comprising all the routes out of Redwood City and all other towns in San Mateo county. One of the two cars and as many cash prizes as there are active candidates will be awarded to this district.

Advisory Board

It is the sincere aim of this newspaper to conduct this campaign, from start to finish, in a fair, honorable and businesslike manner and to safeguard the interests of participants and absolute honesty in all dealings is guaranteed.

However, not all wisdom lies with any one man or institution and for that reason an Advisory Board has been decided upon, whose functions shall be to decide any question of sufficient moment that might happen to arise during the competition and from which a committee shall be selected to act as judges and count the credits the last night of the campaign. The personnel of the board will be announced at a later date.

Cleaning Without Odor by the
F. Thomas *Process*

Our many years of experience has taught us that it is impossible to do perfect cleaning with cheap, inferior methods. That is why we found it necessary to invest nearly $500,000 in the equipment of a plant and the establishment of an expert organization to do the quality of work demanded by our customers.

With the "F. Thomas Process" we not only remove every particle of dust but we return your garments without that usual disagreeable smell of gasoline. Every drop of gasoline we use in cleaning is redistilled and very highly refined.

Raw gasoline—the kind that you buy for your automobile—is full of heavy oils and unfit for cleaning fabrics. It is little better than ordinary distillate and leaves a sickening "gasoline" smell in your clothes

LEGISLATIVE LETTER

By C. W. TURNER

Sacramento.—Every session of the legislature begins with a declaration by members of both houses that they favor the introduction of but few bills, prompt action on those introduced and quick return to their homes.

Every session sees this program grow less and less likely of accomplishment as the days go by, and the introduction of so vast a number of measures (in many cases duplicated in both houses) that weeks of debate and consideration would be required to settle them one way or the other.

The present session is no exception to the rule. It will be recalled that it was announced that there would be very few bills introduced, yet on the first day for the introduction of bills, on senator introduced nineteen and one assemblyman offered twenty-nine, and when recess was taken 773 bills had been introduced in the senate—fifteen more than last year—and 1,169 in the assembly, which was eighty-nine less than two years ago. When the legislature reconvenes on February 24 it will have 1,942 measures before it for consideration.

The budget and the apportionment bills are the most important and will unquestionably cause long debates, especially the latter, unless a compromise is reached between the "cow counties" and the cities.

The measures which will probably directly interest more Californians than any others are various schemes for extending the highway system of the state, schemes which include a tax upon gasoline of 1 cent more per gallon than at present; a direct property tax, and a tax increase on motor vehicles. These, with a bond issue of $25,000,000, it is thought, would provide the necessary money to continue the present road system.

It is proposed to divide the highway system into two sections, the first to include the interurban routes and the main roads; and the second to cover minor roads and lines leading to recreational locations. Though the special committee which has been studying the highway problems were asked to recommend the building of some 3,000 miles, it endorsed only 169 miles which include roads from San Rafael to San Quentin; Crescent City to the Oregon line; completion of the great highway from San Francisco to Oregon; the line from Alturas to Oregon; the line from Coleville to the Nevada line, which would complete the connection with Nevada; the line from Bakersfield to Mojave, which would be the longest and most complicated of the proposed new roads; the road from Needles to Topac; the line from Shaver Wells to Coachella, from Blythe to the Colorado river; the line connecting Oxnard with the main coast trunk line and the seven miles between San Diego and Tia Juana.

It will be noticed that all of the roads endorsed would either connect the California highways with those of Oregon, Nevada, Arizona and Mexico, or else would complete the main trunk lines of the state.

To complete the other roads asked for, it is estimated, would cost $177,000,000 and that amount of course would have to be raised by bonds. The subjects of taxing motor vehicles and gasoline and of completing the highway system are so important that during the recess many members planned to hold special meetings of their constituents for the purpose of having a public discussion of the subjects and securing the views of the people on the issues involved.

Other motor vehicle bills that will be of general interest are by Senator Breed to amend the existing statutes to refuse chauffeurs' licenses to persons having even minor physical disabilities, and forbids their issuance to persons mentally unsound. The motor vehicle department is to inquire into automobile accidents and when a driver is found responsible for an accident causing death or serious injury his license is to be revoked. Habitual speeders and reckless drivers, on third conviction, will lose their licenses. Farmers who use their motor vehicles for only occasional transportation of personal property are to be relieved of the necessity of taking out commercial licenses. Any person promising to appear in court, and failing to do so, is to be subject to five days in jail; his license and that of his vehicle to be suspended until he does appear.

The university of California will not be eligible for competition in Rhodes scholarships for the coming two years by reason of an arbitrary grouping of the scholarship commission which places California in group B. Only colleges in groups A and C will compete this year and 1926.

There are now $13,500,000 in protested tax payments being held up by litigations instituted by the Southern Pacific and the Santa Fe railroads in their test of the King tax law. Of the amount $1,363,627.27 represents what the roads refuse to pay the state for the fiscal year, 1934-35.

An approximate increase of 35 per cent in convictions for traffic violations in 1924, over the preceding year, is shown in the report of the chief of the motor vehicle division; 67,256 persons were convicted.

PIONEER PASSES

Mrs. Barbara Husing, wife of E. A. Husing, well-konwn San Mateo capitalist, was buried Tuesday morning at St. John's cemetery, San Mateo. Mrs. Husing was the oldest daughter of the late James Byrnes, for many years a leader of republican politics and a senator from this district in the California legislature. Mrs. Husing had been an invalid for several years past so her death was not unexpected.

Besides her husband she is survived by one daughter, Mrs. Harry Cahalan of Burlingame and by two sisters, Mrs. Dennis Mahoney and Miss Annie Byrnes and by a brother Thomas E. Byrne, all of San Mateo.

LEGAL NOTICE

NOTICE OF ELECTION FOR ANNEXATION OF TERRITORY TO THE TOWN OF ATHERTON.

NOTICE IS HEREBY GIVEN that at a regular meeting of the Board of Trustees of the Town of Atherton, in the County of San Mateo, State of California, held on the 21st day of January, 1925, a written petition was presented to said Board signed by at least one-fourth in number of the qualified electors residing within the territory hereinafter described, as shown by the registration of voters of San Mateo County, in which such territory is situated, containing a description of the territory hereinafter described and asking that such territory be annexed to the Town of Atherton.

The territory so sought to be annexed lies contiguous to the Town of Atherton and is specifically described as follows, to-wit:

BEGINNING at a point on the southeasterly boundary line of the Town of Atherton, being the intersection of the southwesterly line of the State Highway with the centerline of Alejandra Avenue; running thence southeasterly along the said southwesterly line of the State Highway to the northwesterly line of Valparaiso Avenue; thence southwesterly along the said northwesterly line of Valparaiso Avenue to the southwesterly line of Elena Avenue, said point being also on the southeasterly boundary line of the Town of Atherton; thence following along the said southeasterly boundary line in a general northeasterly direction to the point of beginning.

Said territory has been by the Board of Trustees designated, and in this notice of election it is hereby designated by the name "Atherton Addition Number 3," the same being a name and designation declared to be appropriate, and an appropriate name of identification by which said territory shall be indicated upon the ballots to be used at said election, and at any other election at which the question of said annexation shall be submitted.

Pursuant to law and the order of the Board of Trustees of the Town of Atherton, notice is hereby further given that a special election has been called, and will be held on Tuesday, the 24th day of February, 1925, for the purpose of submitting, and at which there will be submitted, to the qualified electors residing in the territory so proposed to be annexed, the following proposition, to-wit, that it is proposed to annex to, incorporate in and make a part of the Town of Atherton, the territory sought to be annexed, and hereinabove described and defined; and the qualified electors of the said territory so proposed to be annexed are invited to vote upon the said proposition of the proposed annexation of said territory, by casting ballots at said election upon which there shall be printed in addition to any other matter which may be required by law, the words:

"Shall the New Territory proposed to be annexed to the Town of Atherton by the Petition filed January 21st, 1925, and now hereby defined and designated as "Atherton Addition Number 3" be annexed to the Town of Atherton— YES

"Shall the New Territory proposed to be annexed to the Town of Atherton by the petition filed January 21st, 1925, and now hereby defined and designated as "Atherton Addition Number 3" be annexed to the Town of Atherton— NO

To the right of and opposite each such proposition there shall be a voting square.

If an elector shall stamp a cross (X) in the voting square after the printed word "Yes" the vote of such elector shall be counted in favor of the annexation of the territory referred to in such propositon; and if the elector shall stamp a cross (X) in the voting square after the printed word "No" the vote or such elector shall be counted against such annexation.

Said election shall be held and conducted in conformity with the general election laws of the State of California, and said election shall be held in conformity as near as may be to the laws concerning general elections, except as in the Annexation Act of 1913 otherwise provided.

The entire territory herein proposed to be annexed shall constitute one voting precinct, and the place where the polls shall be held is in a room in the basement of the Leon F. Douglass residence at the north basement entrance thereof, situate on the northwest side of Valparaiso Avenue between the State Highway and Emilie Avenue.

The following have been appointed officers of election to-wit:

INSPECTOR, Leon F. Douglass.
JUDGES: Thomas T. Pacheo and Edward P. Mahony.

The said polls shall be opened for the purpose of voting on such proposition from the hour of six o'clock A. M. of the morning of said day of election to the hour of seven o'clock P. M. of the afternoon of said day of election, when the polls will and shall be closed.

By order of the Board of Trustees of the Town of Atherton adopted January 21st, 1925.

Some Household Suggestions

Items of Iterest To Women In And About the Home

OPERATION AND CARE OF SEWING MACHINE

Holding School on Care of Sewing Machine.

(Prepared by the United States Department of Agricultre.)

A suggestion may be borrowed by any housekeeper from the fact that in New York state more than a thousand farm women have taken advantage of the one-day schools on the care of sewing machines held by the department of rural engineering of the New York State Agriculture college. A report received by the United States Department of Agriculture states that the schools are arranged by the local home bureau agent in each country, and are planned to have about fifteen women each.

Concentrated Instruction.

Every school begins promptly at ten o'clock in the morning and if only a few women are present they get the privilege of concentrated instruction. About 90 per cent of sewing machine trouble is due to dirt in the machine, and many a backache has been removed when the women got rid of gum, oil, fluff, loose threads, and other impediments to the easy running of their machines. Every forenoon of the school is given up to cleaning the machines, which means removing all the dirt from the bearings, usually by means of a stiff brush and gasoline. Aged, decrepit and ailing machines have had many of their ailments removed by the cleaning.

The afternoon is spent with fundamentals, such as the adjustment of the tension, which is the second great source of sewing machine trouble. In the majority of cases either the upper or lower tension is too tight, and the women are told to pull the cloth on a puckered seam to see whether the upper or lower thread pulls; the thread that breaks has the tightest tension.

Bring Their Machines.

The women come for miles around, bringing their machines by auto, wagons, wheelbarrows, baby carriages, and, in snowy weather, on hand sleds. One woman carried the head of her machine, that is, all above the stand and treadle, for 14 miles, walking all the way. This was in the hilly country of Ulster county. When the school was over she said she didn't mind walking back, but she hoped that somebody going in her direction might cart the machine for her, at least, part way. She got the lift back.

Counties are clamoring for this service, asking for daily extension schools. No machine comes to school unless something is the matter with it; and so far none has ever left the school without being in good running order.

LITTLE FROSTED CAKES ARE EASILY MADE

Various Shapes May Be Used In Making Cakes.

(Prepared by the United States Department of Agriculture.)

The United States Department of Agriculture has tested the cake recipe and frostings given below. This cake, if baked in a shallow pan about 9 inches square, is well adapted to cutting up into small fancy shapes. At least 20 diamond-shaped cakes 1½ inches wide can be cut with little waste from the amount given. Other fancy shapes may, of course, be used. These little cakes may then be entirely covered with white or tinted icing and decorated with bits of candied cherries or cranberries, angelica, jellied grapefruit peel, or tinted watermelon rind preserve, citron, or nuts.

Cooked Frosting.

White of 1 egg. 1 cupful sugar. 4 tablespoonfuls cold water. ⅛ teaspoonful salt.

Place all in a double boiler and beat with an egg beater until it holds its shape. Add salt and beat until thick enough to spread. Add one-half teaspoonful vanilla or other desired flavoring.

Chocolate frosting can be made in the same way by adding 2½ squares of chocolate, melted, to the sugar mixture when it starts to hold its shape. The frosting is beaten until stiff and then spread. Vanilla may be used or omitted with the chocolate according to taste.

For a caramel icing, half a cupful of sugar should be caramelized or browned in a pan, and an equal amount of boiling water added. Substitute two tablespoonfuls of this sirup in place of two tablespoonfuls of water and continue as in the foundation icing.

Plain Cake.

3 tablespoonfuls fat. ½ cupful granulated sugar. 1 egg. 2-3 cupful milk. 2½ teaspoonfuls baking powder. 1½ cupfuls pastry flour. Flavoring as desired. ¼ teaspoonful salt.

The fat may be butter or any good cooking fat or oil. If it is butter or margarine an extra one-half tablespoonful of it should be used. Cream the fat with the sugar; add the eggs well beaten, the milk and flour alternately. Sift the baking powder and salt with one-fourth cupful of the flour, and fold in last, just after adding the flavoring. Bake in a nine-inch square pan, in a moderate oven (about 360 F.) for about 30 minutes, or until the cake is brown.

Uncooked Orange Icing.

2 egg whites, beaten stiff. 3½ cupfuls confectioner's (XXXX) sugar. Grated rind of ½ large orange. 3 tablespoonfuls orange juice. ¼ teaspoonful salt. ½ tablespoonful lemon juice.

Add the water. Beat the egg whites with an egg beater until stiff. Add three cupfuls of sugar very gradually, beating continuously with a spoon. Add the grated rind and juice of the orange, the lemon juice, and remainder of the sugar. Beat until smooth enough to spread. This amount should cover five sides of over 25 little cakes cut as above described.

POTATOES PREPARED IN DIFFERENT WAYS

Some Recipes Suggested by Way of a Change.

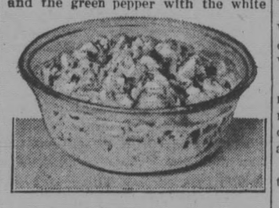
(Prepared by the United States Department of Agriculture.)

Potatoes may be prepared in such a variety of ways that the family need never tire of having them. The United States Department of Agriculture suggests some of the recipes below by way of a change:

Potatoes With Cheese and Green Pepper.

2 cupfuls diced cooked potatoes. 1 tablespoonful flour. 1 tablespoonful fat. ⅛ cupful milk. 1 teaspoonful salt. ¼ teaspoonful pepper. 1 green pepper cooked and chopped. ½ cupful grated American cheese. ½ cupful bread crumbs.

Make the sauce, using the fat, flour, milk and seasoning. Mix the potato and the green pepper with the white



Potatoes Creamed With Carrots and Green Peppers.

sauce and cheese. Put in a baking dish and cover with the bread crumbs and brown in a hot oven.

Canned red pepper or pimiento can be used in place of the green pepper.

Potato Omelet.

1 cupful mashed potatoes. ¼ teaspoonful pepper. 3 eggs. 3 tablespoonfuls cream or milk. 1 teaspoonful salt.

Wash eggs, and separate the whites and yolks. Add the yolks to the potatoes and beat until there are no lumps. Season with onion juice, if desired, and chopped parsley. Beat the whites until stiff and fold into the potato mixture. Put into a well-greased frying pan and bake in oven until brown. Then turn and fold on hot platter. Serve at once.

Potato and Cheese Molds.

2 cupfuls mashed potatoes. 4 tablespoonfuls fat. 2 tablespoonfuls cheese. ¼ cupful milk. 1 teaspoonful salt.

Melt fat in saucepan, add potatoes, and mix well; then add the milk and half the cheese and seasoning. Put into a greased baking dish, small ramekins, or baking cups, sprinkle the rest of the cheese on top and bake in a fairly quick oven about ten minutes.

Potato and Egg Mold.

2 cupfuls mashed potatoes 1 cupful egg sauce.

Mix the potatoes with the egg sauce and season. Put in baking dish or baking cups and bake until lightly browned. The egg sauce is made as follows:

Egg Sauce.

1 cupful milk. ½ tablespoonful potatoes. 1 tablespoonful fat. Pepper. Salt. 1 hard-boiled egg.

Make a cream sauce by mixing the potato starch with the melted fat, combining with the milk, and cooking until thickened. Add the finely chopped egg. If potato starch is not available, cornstarch may be used instead.

Potato and Nut Sausage.

2 cupfuls mashed potatoes. ½ pound nuts of any kind. 1 egg well beaten. 1½ teaspoonfuls salt. ⅛ pound salt pork. ⅛ teaspoonful pepper. Few grains cayenne. Pinch celery seed. ⅛ cupful milk (approximately).

To the mashed potatoes add enough milk to bind them. Put nuts in boiling water to loosen skins, remove skins, and put nuts through meat grinder. Mix nuts and potatoes thoroughly and season well. Add well-beaten eggs to potato mixture. Form into sausages, flour them well, put into greased pan, and put a small piece of salt pork on top of each sausage. Bake in a fairly hot oven until brown (about forty-five minutes). Serve with tomato sauce.

Honey Useful in Making Fruit Salad Dressing

(Prepared by the United States Department of Agriculture.)

Here is a salad dressing made with cream for those who do not like oil. The interesting point about it is the use of honey to make it slightly sweet for use on fruit salads. The recipe is furnished by the United States Department of Agriculture.

4 egg yolks. 2 tablespoonfuls vinegar or lemon juice. 2 tablespoonfuls butter. 2 tablespoonfuls honey. 1 teaspoonful mustard. 1 teaspoonful salt. Paprika to taste. 1 cupful cream.

Heat the cream in a double boiler. Beat the eggs, and add to them all the other ingredients but the cream. Pour the cream slowly over the mixture, beating constantly. Pour it into the double boiler and cook until it thickens, or mix all the ingredients but the cream and cook in a double boiler until the mixture thickens. As the dressing is needed combine this mixture with whipped cream. This dressing is particularly suitable for fruit salad.

Milk for Children Best

There is more than an ounce of fat (at least two and one-half level tablespoonfuls) in a quart of whole milk. If the healthy child is given a quart of milk and has butter on his bread, he gets enough fat, and that which he receives is in wholesome form. It is well, therefore, the United States Department of Agriculture believes, not to give children such fatty foods as pastry, fried meats, doughnuts or rich cakes, as experience has shown that in these the fats are not in so good a form for them. If the child is constipated, the occasional use of cream or salad oil is desirable for fat in abundance is laxative.

Credit Given to Monks

Lubke's "History of Art" says that the Gothic style was introduced into Italy by Cistercian monks from Burgundy.

HOLD-UP THIEF FOUND GUILTY AND SENTENCED

Louis Harris, who on pretext of having a sick baby, took Dr. Dykes to an unfrequented plaie near San Carlos and there robbed him of what money and jewelry he had, was tried this week in the Superior court here. The jury was out only fifteen minutes and returned with a verdict of guilty. The man was immediately sentenced to a term of from five years to life in San Quinten.

The trial was featured by the outspoken and defiant attitude of the defendant, who continued to berate the county officials throughout the proceedings and was severally reprimanded by the judge.

When brought into court, he stated "I did not expect to be tried by a kangaroo court," and when sentence was given said threateningly, "I hope the same officials are around here when I get back." The sheriff and district attorney were especially the objects of man's bitterness.

Harris has quite a criminal record and was found to have broken jail three times before being caught here.

SEEKS NEW TRIAL

Notice of intention to move for a new trial in a suit over the terms of an option held by Peterson & Haywood, Burlingame nursery firm, on land owned by Henry Maier of Burlingame at Oak Grove avenue and San Mateo drive, was filed by Maier in the Superior court here this week.

A decision was won by the nursery firm January 7 in the Superior court, when the company sued to enforce terms of the option by which it was alleged, Maier had promised to sell for $10,000. The land is in use by the nursery under a lease.

Ross & Ross represent the plaintiffs in the action, and J. E. McCurdy the defedant.

DIVORCE SUIT FILED

Suit was filed in the Superior court here this week by Elwin Feliz for divorce from his wife, Mamie Feliz. In his complaint, which was filed by Attorney James T. O'Keefe of this city, Feliz charges that his wife spent her time with men of questionable character, stayed out all night and attended wild night parties.

ALL QUARANTINES FOR FOOT AND MOUTH DISEASE OFF SAYS COMMISSIONER

The following report was filed this week by A. R. Tate, county horticultural commissioner of San Mateo county.

On January 15th official notification was received that Oklahoma had waived restrictions on account of the foot and mouth disease. This eliminates certification resuirements for all the states in so far as the cattle disease is concerned.

The director of agriculture and the University of California are preparing statistics as to the damage occasioned this state by the foot and mouth disease and the resultant quarantine, and I have been requested to assist by furnishing the amount of damage to this county. The losses are estimated under two headings, direct and indirent. The direlt loss, caused by the inability to ship produce to accoustomed markets, lowering of prices locally, because sections falling off in consumption through fear of contagion even in states where no restrictions were made, is conservatively figured at over $100,00. The potato growers at Colma alone, lost approximately $20,00 due to the fact that they could not ship early potatoes to Oregon and Washington. As an instance of loss caused by inability of infected areas to ship out of the state, Alameda pea growers were restricted and so were restricted and so were forced to market their green peas in San Francisco, the sharp decline in prices which followed is quite painfully remembered in the early pea growing section of the county. The indirect loss is far greater than the direct, but it is impossible to arrive at any accurate estimate as many industries not even remotely connected with cattle were effected. No one would suppose that a cattle disease would effect the automobile and allied industries, yet the consumption of gasoline fell off fifty per cent in some localities, while the severe restrictions in regard to traffic were in effect. The following is a partial list of those efected financially by the epidemic: Producers and dealers in livestock, dairy, poultry products, flower growers and florists, hay and grain, vegetables and all industries connected therewith. Even dealers in campers supplies felt the effects.

Dormant spraying of fruit trees should be completed the coming month. Due to its control of insect pests as well as such fungus troubles as scab and peach leaf curl, we still recommend the use of lime-sulphur solution. tf may also be used on plum, prune, or almond trtes, as a bud spray for the control of brown mite eggs, aphis eggs, and brown rot, as well as on apple and pear trees, for scale and scab and on peach for the curl and peach moth. For brown rot on the apricot, use Bordeaux, 8-8-50 formula.

447 shipments of 138,599 plants were inspected during January of which 8,094 were fruit trees and 83,412 strawbery plants. 414 of the shipments of 128,091 plants were from within the state.

Respectfully submitted,
A. W. TATE, JR.,
Horticultural Commissioner.

Banana Industry Periled

By introducing a variety of banana that was immune from the fungus disease that was destroying the trees of Jamaica, growers of the island have saved the industry.

RICHARD E. HOMER
Known as
"Old Buckskin"

Will appear on the stage, in person, with the most wonderful aggregation of educated animals that have ever appeared on the American stage, including

"HEADLIGHT," the Wonder Horse

Hitched to a buggy, he drives through the streets of any city without a bridle or lines. Does acrobatic turns in comedy. Makes his poses. Fires a gun with his teeth. He goes to a cash register and makes change like a real person. He was awarded a gold medal for meritorious performance before the grand stand at the State Fair at Sacramento, Calif., in 1920, also 1921.

"HONEY BOY"
Is a Miniature Hungarian Horse,

Only 42 inches high, with big dapples and a white mane and tail. He makes the bed; puts the baby to bed; rocks the cradle; takes away the baby buggy; goes to the ice box, opens the lid, gets a glass nursing bottle and gives it to the baby; picks out the colors; tells the time; says his prayers and goes to bed. He does fifty-seven stunts. He also was awarded a gold medal at the California State Fair in 1921.

"GINGER" is a Dapple Grey Mule

Though only a Mule
She went to school
To show the world
That she is not a fool.

Her ears are long
And her tail is short;
But get out the ways boys
When you hear her snort.

Her eyes are black
And her coat is slick,
Come and see her perform
And get the kick.

"GOLDEN ROD"
Is a Real Western Mustang Pony

Born, raised and educated in California. He has worked in many moving pictures with the big companies. He has played as an attraction at the California State Fair and many fairs and on the stage in many theatres over the State.

"KING" the Big Movie Picture Dog

Is a beautiful thoroughbred BLUE DANE. He can do anything but talk.

NEWS OF MENLO PARK

Mrs. A. W. Gale has been appointed to take charge of the publicity committee of the Parent-Teacher Association. The selection is a splendid one for Mrs. Gale has experience in this line of work and knows the proper news to send to the press.

Plans for the entertainment of the San Mateo County Federation of Parent-Teacher Associations by the Menlo Park P.-T. A. on Founders' Day, February 20, were discussed at a meeting of the executive board of the association, held Monday night in the grammar school building at Menlo Park. A committee of four was appointed to arrange for the details of a luncheon and other entertainment features.

There was a persistent rumor in town yesterday to the effect that a new cement plant was planned to be established in the neighborhood of Ravenswood and that Herbert Fleishhacker, the multimillionaire, was behind the enterprise. For some time this report has been current on the peninsula and San Francisco and those in a position to know say there is something to the rumor. The cement plant at Redwood City is a decided success and is making big profits from its daily output. This may be an incentive for starting the second plant. It is said the proposed new concern is to be modern and strictly up-to-date, and is to be equipped with the latest machinery, enabling the owners to produce cement at a lower cost than any other concern.

On Wednesday eveing Dr. B. Stonford Claunch, the noted pscychologist, delivered an able address to a large audience in the Presbyterian church on the subject, "Psychology and Health." The lecture was under the auspices of the Study Club, a literary organization. The doctor explained that nature was the great-physician. By aiding her in the proper care of eating, sleeping and with a certain amount of work many ills could be avoided.

Fathers' Day was duly observed by the local Parent-Teacher Association last Friday night by an entertainment for the public in the auditorihm of the grammar school. A very interesting program of musical and instrumental music was rendered. After the performance light refreshments were served by the ladies, members of the association, to the delight and appreciation of the throng present. The entertainment was the best seen in Menlo Park for a long time.

The rain for the present storm is 1.25 inches, making a total of 8 inches for the season. This makes the rainfall almost normal. There is a big head of water in the San Francisquito creek, showing a big rain fall at Portola and Woodside.

Mr. and Mrs. Duncan Reynard spent the week end meeting friends in Modesto.

Louis Beltramo is enjoying a trip to Tiajuna, Mexico. The young man is to visit kindred points of interest in the republic. His hurried departure south gave rise to the report that he was to lead a fair daughter of Los Angeles to the altar but he has written friends to the efect that he is still in the bachelor ranks and has no present intention of deserting them.

This week J. J. Murray sold the old skating rink site used during the war by the soldiers to Julius Grummundy who is to erect two modern bungalows on the property. A large rink on the lots was destroyed by fire shortly before the armistice was declared.

Denis A. Merz, Southern Pacific Company's flagman at the Timothy Hopkins crossing, has sold a parcel of property in Menlo Oaks at a satisfactory profit to Thursten Brown. Mr. Merz believes in making hay while the sun in shining. He has nine other parcels of choice holdings in San Mateo county for sale.

The former Hammerson home on Santa Cruz avenue recently purchased by J. H. Heltzel, late of the Menlo Grocery, has been transformed into two pretty and cosy apartments from which the new owner derives a nice revenue. Mr. Heltzel is a wide-awake business man who sees big possibilities and profitable real estate investments in Menlo Park.

Mrs. C. Coxin, having won her ejectment suit against one of her tenants this week the sale of the Coxin Block to the University Realty will now be consumated. The new owners plan many alterations upon the buildings and the construction of others.

James Glynn, who recently resigned his position in the art department of the San Francisco Chronicle, has become a staff artist of the San Jose Mercury. His "Dizzy Daily" is making quite a hit in the Garden City. Young Glynn is certain to make his mark as a cartoonist.

The marriage announcement of Miss Mary Eglington Montgomery, daughter of Rev. and Mrs. Hugh Montgomery at Stockton recently, was no surprise to the friends of the young couple here. Up until a few years ago Rev. Montgomery was pastor of Trinity Episcopal church in Menlo Park, and Major Philip G. Wales, father of the groom, maintained an attractive home in the Drexler tract. It was here that the bride spent her childhood and developed into beautiful womanhood and here too, Mr. Wales grew to manhood. The marriage is the culmination of a boy and girl romance which began in happy school days. Their attachment for each other was so apparent while here that the announcement of their troth caused no surprise. A few years ago young Wales was appointed a cadet at Annapolis and remained at the institutfon only a short time when he returned to Menlo Park. His friends believed that his love for the pretty Miss was so great that he could not remain away from the land of his youthful dreams and gave up the sea as a career to be with the girl of his choice. The bride is an unusually beautiful and charming young woman who has seen nineteen summers come and go. She is a brunette with large lustrous sparkling eyes and a colorful complexion and grace of carriage that made her the attraction of any gathering in which she was. She graduated from Harker's school at Palo Alto last year and afterwards went to New York to complete her education in an exclusive school for young girls. The Menlo Park girl was very popular in the east and was sought after by the ultra society set of New York. Her striking beauty won her hosts of admirers. Major Wales, who recently passed away here, was a graduate of West Point, serving in the medical corps. He was a distinguished physician and surgeon and had a distinguished career in the army. Two of his sons served in the World war, one Philip, is now in Texas, in a hospital suffering from a malady from which he may never recover. He was gased while fighting overseas.

The Montgomerys came to California in 1904, when their weding in Pasadena united two of New York's old and well known familieis Colonel James Eglinton Montgomery, father of the Rev. Hugh Montgomery, was prominent abroad as consul for many years. He was the direct descendant of Roger re Montgomerie before the coming ofRollo in 912.

Mrs. Montgomery's father, the late Alfred C. Howland, was the distinguished artist who in the East is styled the Carot of America.

For the present the young couple are residing in Stockton, the Rev. Hugh Montgomery being rector of St. John's church there. His uncle Dr. Montgomery, was a founder and the first rector of the Church of the Incarnation, New York.

WOODSIDE

The rains of Wednesday and Thursday filled our water-courses for the first time this season. Heretofore the rain has been absorbed by the thirsty ground and little of it has been seen in creek or gutter but this time it overflowed and the children have been floating boats down the running streams.

Most of the children and many of the parents journeyed to Redwood City the first of the week to see the film play of Abraham Lincoln produced at the Sequoia Theater, and all came home with a more vivid conception of this great American. Coming so close to the celebration of his birthday anniversary, it stimulated an interest and taught a lesson in historic fact and in patriotism beyond the power of the written or spoken word. It is an instance in point for those advocates of visual education.

The delivery truck of the Gilman Aryshire Farms broke the steering knuckle at an awkward place on the grade the other day and stubbornly headed through the guard fence and over the embankment. The driver stuck with the car during the wild ride and was uninjured. The truck was drawn out with block and tackle and carted to Redwood City for repairs.

Dr. Ross is advertising his Little Forest property for sale. While we are boosting Woodside property, we shall be sorry if he sells.

Mr. and Mrs. Aaron St. John, who have gone to Willits for several weeks to visit their son.

James O'Donnell of Burlingame paid a visit to his place here on Sunday last.

J. Frank Pierce has been steadily increasing his squab raising plant until he now has the most extensive pigeon lofts in the valley.

Mrs. Fred Mighall and Mrs. A. H. Audiffred were luncheon guests of Mrs. W. J. Dusel at Redwood City on Wednesday last.

The epidemic of colds is still with us, hardly a family in the neighborhood but has some member afflicted.

The roads, other than the paved highway, are in bad shape and in urgent need of repair. The Canyada road is about as comfortable to travel as one of the corduroy roads they build across the southern swamps.

The local school received a visit from County Superintendent Cloud during the week. Mr. Cloud gave a very interesting talk describing his visit to many of our national shrines during his trip to the East last summer.

Some of the larger school boys, reinforced by some of the high school boys resident here, met a team from Los Lomitas, similarly composed, last Saturday in a game of basket ball and won the gafe.

The acacia trees are coming into bloom. Apparently the acacia has been the most popular with those who have planted trees in Woodside and looking down from the mountain side the whole valley seems thickly freckled with great splotches of yellow.

Value of Observation

An observant man, in all his intercourse with society and the world, carries a pencil constantly in his hand and, unperceived, marks on every person and thing the figure expressive of its value, and therefore instantly on meeting that person or thing again knows what kind and degree of attention to give it.

First White House Bride

Lucy Payne Washington, sister of Mrs. Dolly Madison, was the first White House bride. Her marriage to Associate Justice Todd of the United States Supreme court took place in the President's mansion in 1811.

The story of a girl who ran away from a marriage of arrangement to follow a childhood sweetheart to South Africa, only to find that he had become a worthless scoundrel will be shown at the Sequoia Theatre next Monday and Tuesday, Feb. 9 and 10 in "The Top of the World." How she married his cousin, who was also his physical double, but is pursued by the scoundrel, who is frequently drunk and often in the grip of narcotic drugs. When he finds that the girl has married his cousin, he prepares to kill him but loses his nerve and shoots himself. The two nurse him back to health with the aid of Sheldon Lewis, who plays the role of a vicious, unscrupulous physician who panders to his drug addiction and holds him under a sort of hypnotic sway.

An accident to a neighbor and the threatened rebellion of the black servants takes the husband away to the neighbor's home for a few days. He quells the uprising, but in the meantime his cousin has taken advantage of his absence to attempt to make love to the girl. She resists but in the struggle loses the key to the strongbox containing her husband's money, which he has left in her care.

The worthless cousin finds the key, steals the money and with Lewis, flees to the city and enters upon a debauch of liquor, dope and gambling. The girl follows, intending to get the stolen money and takes refuge in his room. She is found there by her husband, who has returned to his home, sensed the situation and followed to the city. He misunderstands her presence in his cousin's room, and starts to kill him when he is halted by the girl's first surrender to his love. They stay there through the night. The next morning Lewis makes an insulting remark about the girl and is horsewhipped into insensibility by her husband. They leave for the ranch through a blinding storm that soon develops into a cloudburst. Floods come sweeping down from the moltains that night and menace the valley. Homes and people are swallowed hp.

While the husband is out attempting to stem the tide of the onrushing waters, the worthless cousin returns. He has won heavily at gambling, and tries to tempt the girl to flee with him by exhibiting handfuls of diamonds and money. She refuses. He attacks her. They struggle.

Finding it hopeless to try to halt the flood, the husband rushes back through the rain and night and bursts in on the scene. It appears to him that the girl is surrendering to his cousin's love-making. He beats his cousin, throws him across a horse, puts the girl up behind him and starts the animal off through the torrent. Feeling that life holds nothing more for him, he turns back into the house to stolirly await the flood and death.

Suddenly the girl comes beating her way back through the storm. She has leaped from the horse and come back to him. "I would rather die with the man I love than live forever in a pseudo Paradise," she tells him.

And the scene where they escape from the flood- Nothing like this has ever been done before. It's real. It makes you gasp. For sheer, stark realism it has the world beat.

NEW TALMADGE FILM IS MADE IN MEXICO

Norma Talmadge sailed for Northern Mexico to make some of the scenes of her latest photoplay, "The Only Woman."

The first stop of the Talmadge company was at Catalina Isle. There some dock and shore scenes were filmed, following by storm and collision—scenes made at sea.

The company then steamed on to Mexico aboard the yacht "Sultana," formerly owned by E. H. Harriman, railroad magnate.

Besides Eugene O'Brien, Norma Talmadge's leading man, the cast includes Matthew Betz, Edwards Davies, Winter Hall, Percy Williams, Stella di Lanti, Murdock MacQuarrie, the Rev. Neal Dodd and Louis Dumar. The picture will be at the Sequoia Theatre nert Wednesday and Thursday, Feb. 11 and 12.

Philippine Mohammedans

In the Philippine Islands there are about 450,000 Moros, who are Mohammedans. Although the wildest and most fanatical of the natives, they are the only ones who have petitioned to have the United States keep control of the Philippines.

Babylon's Dimensions

It is now believed that the ancient city of Babylon was 14 miles square, surrounded by a wall 60 miles in length, 300 feet high, 100 feet broad at the base and wide enough on the top for two chariots to race abreast.

SEEKS DIVORCE

Charging his wife with adultery and with staying out all night, Pietro Pippe this week filed suit against his wife, Irene Pippo, through his attorney, Albert A. Molfino of San Francisco.

The couple were married on May 3, 1917, and separated Feb. 1. 1924. They have one child, Edward Pippo, aged 6. In his complaint Pippo charges that his wife was untrue to him, naming Vincenzo Covione, as the third party. He further states that she called him vile names and said that he was "too old for her."

Pippo asks for the custody of the child and for the community property.

Prophecy

THERE were few who shared the faith of the pioneers who undertook the development of the telephone.

With an infant art to nourish constantly by new discovery and invention, and handicapped by scanty capital and public apathy, they held to their vision of a nation-wide service.

Nearly two score years ago, when the telephones of the United States were fewer than those of a single New York borough today, the business was organized essentially like the Bell System of the present. That is: a central advisory staff, a central scientific organization devoted to development and research, a central department to promote progress in operating technique, a central source of supply of standardized material, local operating companies familiar with local needs, and a national net-work of lines interconnecting these companies.

Telephone pioneers planned this organization structure, believing it necessary for efficient and economical national service. The nation's experience has proved the clearness of their vision.
